

Plastic flange

for retrofit dowelling

HSI 150-DFK

Article no.: 2118010020

- **With integrated spirit level**

For retrofit dowelling using core drills or for screwing onto housing. Facilitates gastight and watertight connection of system seals for cables and cable ducts.

FACTS

Application range:

- Standing seepage water, Pressurised water, Waterproof concrete stress class 1

Dimensions:

- Length x width: 235 x 235 mm
- Recommended centre distance for core drills: 250 mm
- Core drills max. \varnothing : 150 mm
- Structure in front of wall including surface seal: 67 mm

Scope of delivery:

- Fastenings for concrete walls
- Surface seal, 10 mm thick

Advantages:

- System seal can be connected (e.g. cable duct connection or cable seal)
- Can be installed on container walls

Tightness:

- Gastight and watertight to 2.5 bar
